

Example of PDF for testing PDFZone

This is a PDF that can be used to test PDFZone. Any PDFs with characters (not only images) will do.

You must select an area where to extract the values.

You can also define a Trusted Neighbour for more precise extraction. This also allow to extract values that do not have the same position between different PDFs of the same type.

ABC	Value 1
DEF	Value 2
Trusted Neighbour	Value 3
1234	Value 4
Hello	Value 5
